OPEN CALL CYCLICAL NATURE

Asia's leading sustainable light festival will return for its 10th edition to showcase new and exciting light art installations at Marina Bay.

Each year, we invite artists to explore various forms of Sustainable Living through the lenses of culture, the environment and the economy, and examine how light art can create conversations about our lifestyles, decision making and the community.

The curatorial theme of i Light Singapore 2024, **Cyclical Nature**, calls for innovative light art installations that draw inspiration from the colour green - associated with nature as well as sustainable concepts such as the circular economy and upcycling.

Cyclical Nature reimagines the endless potential of everyday objects that are disposed of and their impact on nature through redesign, restoration, and repurposing.

SUBMISSION DEADLINE:
3 SEPTEMBER 2023, 2359HR GMT+8.
